

November 17, 2015

Dear Pilots,

The month of November brings much excitement for all of us with special holidays and the International Care and Kindness Week (ICKW) emphasis. The ICKW focus allows us to reflect on how simple acts to help others in need can change a day, a life or a community. I believe that Pilots around the globe embrace the opportunity to engage in numerous activities to encourage kindness, caring and friendship to all!

With those thoughts in mind, I personally encourage each one of us to consider contributing to the Pilot International Founders Fund. The Founders Fund plays such an important role in helping to reach out and serve others in times of need.

There are many good reasons for all of us to direct our contributions to the Founders Fund. Some of these reasons are educating families about brain safety through Pilot's appealing BrainMinders™ programs and events as well as assisting our fellow Pilots through our Safe Harbor Disaster Relief Fund when natural disasters occur.

We witness events every day that affect the lives of folks around us and especially our members. I think we all agree that we, as members of Pilot International, want to be in a position to reach out to our fellow Pilots and assist them both physically and financially. During this special month, we have a great opportunity to give a little more of ourselves so that Pilot's outreach will make a significant difference in the lives of others.

I know you understand the importance of supporting our Founders Fund and I urge all of us to reach out as individuals and collectively as Pilot Clubs and Districts to contribute to the Founders Fund program. Our contributions will enable Pilot's Safe Harbor Disaster Relief Fund to reach out and touch lives in times of need. Your tax-deductible contributions can make such a difference as we seek to **Do More**.

To contribute, visit the following link and click on [Make a Donation](http://tinyurl.com/donatepilot):
